The original clear **ostomy odor eliminator**. Odorless, non-toxic, and instantly effective.

**Na`Scent is not a deodorant.** This clear liquid doesn't hide odor, it eliminates it by creating an oxygen-rich environment that eliminates odor-causing microbes in the pouch. For use in colostomy, ileostomy and urostomy pouches and stoma caps, Na`Scent allows you to enjoy your favorite foods and socialize without worry.

- 1oz, 2oz, 8oz, and 12oz bottles available
- Woman owned and operated
- WOCN Corporate Member
- 100% made in the USA
- Government credit cards accepted

NB Products is family owned and operated and has been eliminating ostomy odors since 1998. We are the developers and manufacturer of the original Clear Ostomy Odor Eliminator called Na`Scent.

"I am a nurse as well as an ostomate. Unless you experience the fear and discomfort of the looks and comments when you exit the stall of a public bathroom: the embarrassment and hurt of being told that you are band from using the bathroom used by coworker, one could not put in words how FABULOUS Na`Scent works." — Brenda

"I am a registered nurse and have worked over 20 years in this field. Previously I hated emptying ostomy bags. However, recently one of my patients had some Na`Scent. I am happy to tell you all that I will be telling all my future patients about this wonderful product!" — Laura
